

~~SECRET~~

IAS STAFF MEETING MINUTES

29 June 1973

PRESENT:

1. [redacted] reported that the Chilean revolution which began this morning appears already over. (It lasted one day.)
2. Yesterday the DCI awarded the Distinguished Intelligence Medal to John Huizenga.
3. Senator Jackson is going to China in August. The Agency is putting together a reading list for him.
4. Mr. Schlesinger suggested that we do an analysis of what it would be like if the Soviets and the Chinese normalized their relations. Mr. Proctor ordered a long-term in-depth study.

5. Personnel changes: Jack Blake will replace Harry Fisher as Director of the Office of Personnel. [redacted] will become Deputy Director of Personnel. [redacted] will become Chief of Logistics.

6. At the USIB meeting yesterday there was a discussion of the Agency's position regarding the abolishment of the NIS program. There was considerable support of the program by the members of USIB but not to the extent that anyone would give money or people to continue the program. Mr. Proctor feels that it will most assuredly be terminated by the end of FY 74. Components of the Agency will assist DIA in doing whatever it is they require to offset the loss of the NIS program.

7. [redacted] said that the new Mag II typewriters are again in town at the IBM office if anyone is interested in looking at them.

8. [redacted] mentioned that 20 July is "Lundahl Day." The scroll is still up in [redacted] office if IAS personnel wish to sign.
